

Sabin Metal Scottsville

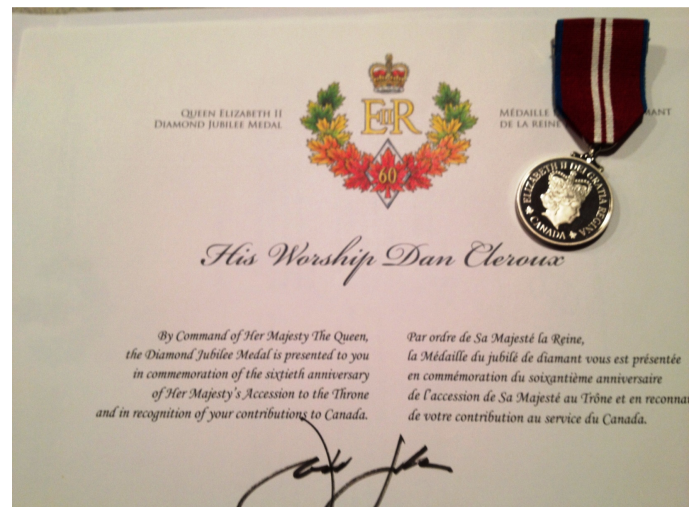

On June 3, 2013 at 9:15 pm a Rochester & Southern train carrying 69 salt cars derailed next to our warehouse. 20 of the cars filled with salt from American Rock Salt Mine in Groveland, NY left the rails causing the rails and Wheatland Center Road to be closed for clean up. Each car holds 80-100 tons of salt. Only 5 cars spilled about 5-10 tons of salt which DEC felt was not an environmental concern. The damaged rail cars were dragged from the track onto Sabin Metal property to be properly disposed of while repairs were made to the rails and bed. The accident is still under investigation, although human error has been ruled out. As of this article the rail is back in service and Wheatland Center Road is open to normal traffic.
