

## Mission Complete

**Sherry Cooke - HR** (above left) Retired on 04/01/2016. Sherry affectionately known as June (Cleaver) worked for Sabin – Scottsville for 29 years. She will be greatly missed, but has earned a well deserved retirement. Sherry's kindness and understanding was what made her so appreciated and admired during her time with us. Although now you will need a different reason to drink? Sherry shared many stories about her years with us and her family, and now is creating more memories with her grandchildren in her leisure time. Sherry was also quoted as saying "I hate you guys!" (She may have been just referring to me & Ed) , but you get the sentiment anyway. We wish her the best of memories – Past, Present & Future!

## Public Service Notice!

**Andy Sabin** quickly grew tired of his "**Hillary for Prison 2016**" signs continually disappearing and decided to take desperate measures. Desperate enough to include an **electric fence!** The Hamptons resident began displaying the signs to voice his disapproval of Democratic presidential contender Hillary Clinton, but the very first sign didn't last much longer than a day, [according to the New York Post](#).

So Sabin went to work to secure the signs and they now sit atop a pair of 12-foot poles behind an electric fence with yellow warning signs, under the watchful eye of a surveillance camera, the Post reported.
