Sabin West

Business is booming here at the Williston site. Forty-one trucks have delivered product since the 1st of April, and there is more on the way. We're running out of room on the floor!

We received our first Sabin International Logistics Corporation (SILC) delivery in April as well. Gary Reinholdt of Williston has been hired by Dan Henderson to drive for SILC. Gary also happens to be the husband of Audrey Reinholdt, our laboratory X-ray technician here at Sabin West. Welcome to the Sabin family, Gary.

The SILC delivery included a nice inboard motorboat.

I can only assume that this is our new Sabin West corporate outing boat, a gift from Sabin- Scottsville. Thanks to you all- we'll get it out on Lake Sakakawea ASAP- the walleye are waiting!
